NOOR UL AIN

WEB DEVELOPER

As a budding web developer, I'm passionate about creating and contributing to open-source projects. With hands-on experience in several web development projects, I'm determined to transition into a full-time position in the field.

PERSONAL PROJECTS

ECOMMERCE STORE
Developed and launched a dynamic e-commerce platform for using React.js and Firebase. Led the end-to-end development process, from conceptualization to deployment, resulting in a fully functional and responsive online store

MEDICAL SITE
Crafted a responsive medical website using React, enabling users to effortlessly register for appointments, streamlining the healthcare access process for patients and healthcare providers.
